ROLLER SHUTTER FRONT MOUNTED SYSTEMS

■ Roller shutters in front mounted systems are designed for use in existing buildings. Thanks to broad colour range, they are an ideal decorative element, matching the buildings design.

■ Elements from a high quality aluminium sheet metal have an increased resistance to abrasion and weather conditions. The well-thought-out construction of the roller shutters and good selection of materials ensure effective protection against unwelcome guests.

■ Futhermore, they help make buildings sound proof and better insulated, lowering temperature in summer time and costs of heating guring colder seasons. Using the independent Moskito system allows for a free interior while allowing in daylight and air.

PROFILES

Aluminium profiles filled with CFC-free foam perforated or not perforated, type:

PA 37
profile height: 37 mm
thickness: 8,5 mm

PA 39
profile height: 39 mm
thickness: 9 mm

PA 40
profile height: 40 mm
thickness: 8,7 mm

PA 45
profile height: 45 mm
thickness: 9 mm

PA 52
profile height: 52 mm
thickness: 13 mm

PA 55
profile height: 55 mm
thickness: 14 mm

Extruded aluminium profiles, type:

PE 41
profile height: 41 mm
thickness: 8,5 mm

PE 55
profile height: 55 mm
thickness: 14 mm

Profiles PVC, type:

PT 37
profile height: 37 mm
thickness: 8 mm

PT 52
profile height: 52 mm
thickness: 14 mm

Aluminium profile- grille, type:

PEK 52
profile height: 52 mm
thickness: 13 mm

Supplementary profiles to the grilles, type:

PEKP 52
profile height: 52 mm
thickness: 13 mm

PROFILES COLOUR RANGE

silver	beige*	brown*	cream white	bordeau*	light grey	anthracite grey
white*	wood dark	yellow*	ivory*	black*	ultra white	basalt grey*
grey*	wood light	red*	fir green*	mahogany	golden oak	quartz grey*
dark beige	dark brown*	green*	steel blue*	nut	golden oak	concrete grey*
white - pearl matt*	light gray - pearl matt*	gray - pearl matt*	gray aluminum	wenge	winchester	mill finish**
					anthracite gray - pearl matt*	dark gray - pearl matt*

The colours don't pattern faithfully upon the real colours. The availability of colours depends on the profiles' type.

* Special color - on order.

** On request can be painted in any RAL color.

Doors and windows **25%** of heat loss

Doors and windows **80%** of sunlight

ROLLER SHUTTERS AND ENERGY BALANCE OF A BUILDING

■ Do you know that:

In winter, the windows and doors contribute to a loss of 25% of the heat and in summer they absorb the sunlight in 80%?

To save energy during the winter and avoid excessive rooms' heating in the summer it is worth to apply the Aluprof roller shutters.

Aluprof roller shutters help to reduce energy costs during the whole year up to 30%.

With Aluprof roller shutters

GAIN better insulation in winter

REDUCE the heat flow in the summer
