ANTI-BURGLARY ROLLER SHUTTER SYSTEM

■ Home is the place which we identify with calmness and safety. Through putting the anti-burglary roller shutters on the market, Aluprof company enables to create an atmosphere of calm, warmth and security.

■ The system of anti-burglary roller shutters is a new system in our offer. This is a system designed for people for whom the security for their closest is a crucial aspect. As the producer of roller shutters, we have decided to go a step further and to offer our customers a product, which not only will be an ideal decorative element but additionally will ensure effective protection against burglary.

■ The anti-burglary roller shutters are an ideal solution which connects a strong, durable and closed cover with an aesthetic design. The anti-burglary roller shutters protects our possessions against theft.

■ The tests which have been taken in an accredited research laboratory, in accordance with PN-EN 1627, confirmed that our roller shutters have 3 class of resistance against the burglary.

ANTI-BURGLARY ROLLER SHUTTER SYSTEM

The reinforced construction of the guide channels does not allow to bend them and pull out the profiles.

Properly solid construction of the curtain prevents against damage.

Reinforcement in the endslat – large rigidity and stability of the curtain.

The ratchet secured by patent, which is in the bottom part of the roller shutter, prevents against the attempt to raise the roller shutters' curtain.

SHUTTER BOXES

- Possibility to adapt the system in already existing buildings but also in newly raised buildings.
- Possibility to use the existing components which are already in our offer
